The DSIS 6th grade art program this year is year-long elective course. The course is designed to provide a deeper understanding of art terminology, drawing techniques/skills, color theory, painting, printmaking, art history, cultural art, and problem-solving skills. Students will produce both two- and three-dimensional art projects, discuss, and write about their own art and that of other artists. Student art will give students an opportunity to develop skills/techniques, express imaginative ideas, and explore symbolism.

You can find some of the topics covered in this class on the back of this page.

All students must follow all school and classroom rules. If a student chooses not to follow our behavior expectations, I will follow the discipline hierarchy of our campus
